MIDSTREAM Texas Conference and Exhibition Launches in October

Houston, Texas (May 27, 2015) – Together with its *Midstream Business* information franchise and its **DUG conference** series, Hart Energy introduces the **MIDSTREAM Texas** conference and exhibition. The event, set for **October 25-27**, will be held at the Henry B. Gonzalez Convention Center in **San Antonio**, Texas.

MIDSTREAM Texas is co-located with the 2015 **DUG Eagle Ford** conference – the world's largest unconventional resources event. The conferences share an exhibition which features hundreds of companies showcasing products and technologies across midstream and upstream operations.

According to the [EIA](#), Texas represents nearly 30 percent of the nation's oil refining capacity.

“Texas stands as the heart of the nation’s midstream network,” said **Paul Hart**, *Midstream Business* **editor-in-chief** and **conference host**. “This conference is an opportunity for senior-level executives to discuss midstream infrastructure around the Houston Ship Channel and other ventures not part of Texas plays, such as the Permian Basin or Eagle Ford. **MIDSTREAM Texas** serves as a much-needed information source by tracking the growth of the state’s diverse midstream infrastructure.”

MIDSTREAM Texas explores:

- The state’s role in U. S. midstream build out
- Major gathering, processing, transportation and storage projects – current and planned
- E&P activity throughout the Permian Basin and elite Texas resource plays: Eagle Ford, Granite Wash/Panhandle and Barnett
- Linking unconventional plays to Gulf Coast infrastructure
- Potential export markets

Attendees can [register online](#) to focus on upstream or midstream content, or upgrade to attend sessions from both conferences. To view a preliminary conference agenda, visit [MidstreamTexas.com](#).

About Hart Energy

For more than 40 years, Hart Energy editors and experts have delivered market-leading insights to investors and energy industry professionals. The Houston-based company produces award-winning magazines (such as *Oil and Gas Investor*, *E&P* and *Midstream Business*); online news and data services; in-depth industry conferences (like the **DUG™** series); GIS data sets and mapping solutions; and a range of research and consulting services. In April 2014, Hart Energy acquired Zeus Intelligence, a leading information provider to the LNG market. For information, visit [hartenergy.com](#).
